**Is the “MedienStudio” at Universität Regensburg still open?**

The [MedienStudio](#) in Regensburg offers the possibility to deal with the media sound and film in a practical way. In order to realize their own projects, the Studentenwerk provides high-quality equipment as well as project-related support. No matter what audio or video projects you have, from splatter short films to birthday rap for your grandmother, you can realize anything in the MedienStudio! Even though the Covid 19 pandemic seems to have the current semester's business under control, a lot is still possible with us:

Would you like to recite a poem or set a short radio play to music? You want to start your own podcast or vlog but don't know how and with which technical equipment? You want to use the time to finally finish your script for your new (or first) short film or play? Then get in touch with our script workshop!

You can get more information about the services of the MedienStudio [here](#).
